Guidance on Education for Research Ethics

1. Relevant

- Completion for Research Ethics Education is mandatory, which was decided by The 4th Graduate School Committee(2021.08.03.)
- Article 6 of the Education Ministry No.263(2018.07.17.) of the Guidelines for Securing Research Ethics
- The Ministry of Education guides researchers through continuos notice of guidelines to raise their awareness of research ethics, and Graduate school decided that research ethics education is mandatory for all graduate school students.

2. Subject [Graduate School Students]

- From the period of application for research plan in the second semester of 2021, Graduate school students must submit ‘certificate of completion’ when applying for research proposal.

3. Application Method

- Go to the ‘KIRD’ web site (https://www.kird.re.kr), register for a course of Research ethics for graduate students(1. Science and Engineering, 2. Humanities and Social Sciences), and choose one considering your major.

4. Requested Documents

- After completion for research ethics education, please make sure to do a survey, and then you can get a ‘certificate of completion’.
- When you applying for research proposal, the certificate of completion should be attached. So remember to take the Research ethics education in advance.

※ Graduate students who don’t have Researcher Number yet, must issue a researcher number at iris web site(https://www.iris.go.kr/index.do#) and register a course for research ethics education at KIRD.
